“Nurturing Potential Talents Through Competitive Exams”

18 January 2023

To,

About Us

Department of Higher and Technical Education, Govt. of Maharashtra has taken a visionary step in this context to begin aided and absolutely devoted Forensic Science Institutes in Maharashtra. In addition to our Institute which changed into founded on 17 August 2009, such Govt. Institutes have commenced in Mumbai and Nagpur and they're controlled and funded with the aid of using Dept. of Higher and Technical Education, Govt. of Maharashtra.

Our institute is devoted completely to Forensic technological know-how research and is the first of its type with inside the country. Presently, we're providing undergraduate (Forensic Science) applications of 3 years duration as well Post Graduation courses like M.Sc Forensic Science, PGD in Digital and cyber forensics and related Laws, PGD in forensics Science and related Laws,. This path consists of disciplines such as Forensic technological know-how, Forensic Physics, Forensic Chemistry, Forensic Biology, Forensic Psychology, Digital and cyber forensics, and Law.

About Pre-IAS Training Centre

Pre-IAS Training Centers, Aurangabad is one of the six Pre-IAS training centers established primarily to train the students from Maharashtra for the U.P.S.C. Civil Services' exams. It aims to provide all the basic guidance to the needy students during the training so as to train them for the Indian Administrative Services. Here, the trainees get an opportunity to improve their knowledge and soft skills. The first center of this kind, SIAC, was started in Mumbai in 1976. Subsequently afterwards, this center came into existence in the Govt. Collage Art And Sciences, Aurangabad campus

Theme of National workshop:

“Nurturing Potential Talents Through Competitive Exam”

A competitive exam is one that is designed to assess the test-knowledge, taker's aptitude, reasoning, or any other skill related to the exam's topic. These competitive tests may be at the state, national, or worldwide levels. Young people are better prepared for their future when they are exposed to competitive tests early in life. It also helps them study different disciplines and discover their passions.

Any competitive exam's primary goal is to expand candidates' skill sets while also teaching them new things. Setting goals and pursuing them is actually the essence of competition. In addition, competition encourages students to believe in their abilities, work hard, and advance in order to get ready for the course of their professions.
